

**Aqua Babies 2010
For Infants 6 months to 3 years.**

Offered only at the Cavanagh Pool

Infants ages 6 months to 3 years are accepted into the program with their parents with the purpose of promoting a positive response to the water environment to teach the child to float on their back and to get a breath of air. We do not teach infants to “swim”. Though some other skills are learned, this part of the program is not described as a “learn to swim”, because that implies a skill level that we do not intend to attempt at this age range. Our definition of swimming is described in Station 10 of the SwimAmerica Station definitions.

Aqua Babies will encourage new abilities in the areas of motor development, language, emotional and social skills. Because the parent is in the water with the child, there will be enrichment of the parent-child relationship.

These classes are taught by our SwimAmerica Coach who has been specifically trained for this age group.

Session 1AB June 14th-June 24th

Session 2AB June 28th-July 8th

Session 3AB July 12th-July 22nd

Session 4AB July 26th-August 5th.
